## REASON FOR DISPERSION

It is with great reluctance that I have had to make the decision at this time to disperse the herd of Shorthorns that I have been personally associated with all my life.

Our faithful farm helper of over ten years of service with us suffered a stroke about the first of October and as I am near 69 years of age it becomes necessary to discontinue with the cattle and farming at this time.

Only Shorthorn females and registered Shorthorn Bulls have been on the farm since the early 1890's. The first registered females were acquired in 1918. The foundation females of the very successful families of the present time were acquired in the following years.

A number of times over the past 40 years we have successfully shown cattle from the herd at the S. D. State Fair and many times have had champion or top selling bulls at the Rapid City, Brookings and Mobridge sales.

Of special interest is the authentic observation made by the late Carl Morse of Seneca, S. D. at our herd reduction sale at the farm in November 1942, while I was home on furlough from service in the U. S. Army Air Force. Fourteen bulls sold in 15 minutes, at prices very satisfactory to both buyers and sellers.

We are confident that buyers, both young and old, can take cattle from this sale and by the use of the right bulls, either Shorthorns or Polled Shorthorns, can have a herd of straight bred cattle that they can be just as proud of in the coming years as we have been.

Note that all the cattle in the sale with the exception of the three herd bulls are home bred.

## GENERAL INFORMATION

TIME: Saturday, December 15, beginning at 12:00 Noon.

LOCATION: Magness Livestock Market, Huron, S. D.  
Sale day telephone - 605-352-8759

FAIR ACRES PRENTICE has proven himself to be a tremendous sire by the quality and uniformity in color of his calves.

Two thirds interest and full possession sells, but we wish to retain a one third semen interest in order to inseminate a number of females that have not cycled yet or have broken service, etc. These females had been pledged to two young fellows to help in the process of establishing new herds, BEFORE the plans for the dispersion sale became necessary. On our herd of horned cows Prentice has been a 95% dehorner.

PLEASANT DAWN AUSTIN has proven to be an excellent sire of both bulls and females as the yearlings and calves by him in the sale will prove.

On our horned cows Austin has not sired very many polled calves and this is the reason we have not used him this season, as we have been aiming for all Polled calves. We feel that with his substance and mellowness Austin can be just the right bull to use in the best of strong Polled herds.

Don't overlook him. Full possession sells.

WESTON CHANCLER is also a sire of excellent calves of both sexes. One of his sons among his first crop of calves was the youngest bull in last winter's Rapid City sale. He was also undoubtedly the biggest bull for his age in the sale, winning his class and was a contender for champion. Chancler is good for many more years of service.
